

SRB-YNL-210H

YD30M motorised single action side-load lock for swing-through and single swing doors – provided with strike plate

Description

The YD30M Cobalt-Mini is a revolutionary low voltage motor driven electronic lock for 90° swing doors. It has been designed to secure single-action doors and addresses the two biggest issues in door locking; the ability to align a misaligned door and the ability to release when requested, even with excessive load on the door.

Product Specifications
