

SR1-MAG-300MORT
Weatherproof Micro Mortice Maglock For Outdoor Use

Description

The Weatherproof Micro Mortice Maglock offers a robust and compact solution for securing outdoor sliding doors and gates. This weatherproof electromagnetic lock provides reliable holding force, a discreet design, and easy installation, making it the ideal choice for various outdoor access control applications.

Key Features:

- **Weatherproof Design:** The stainless steel casing of the Weatherproof Micro Mortice Maglock ensures exceptional durability and performance in outdoor environments.
- **Compact Size:** The micro design provides a discreet appearance for a seamless aesthetic.
- **Reliable Holding Force:** Delivers up to 136kg (300lbs) of holding force for secure door closure.
- **Mortice Installation:** Enables a flush finish for a clean, professional look.
- **MOV Protection:** Offers surge and spike protection for enhanced electrical safety.
- **Fail-Safe Operation:** For safety, the lock automatically releases when power is lost.
- **Anti-Residual Magnetism:** Prevents the door from sticking after unlocking.
- **Armature Plate and Fixings Included:** Provides all necessary components for a quick and easy installation.
