

SR1-MAG-300AL
L Bracket for Mini Maglocks

Description

The L Bracket for Mini Maglocks is a valuable asset for optimising mini maglock installations. This versatile bracket allows for precise positioning, overcomes space limitations, simplifies mounting, and offers a durable and stylish design, making it suitable for various access control applications, particularly with outward opening doors or limited space constraints.

Key Features:

- **Adjustable Design:** Allows for 25mm of adjustment in 8.3mm intervals, enabling precise placement of the mini maglock for ideal alignment and locking performance.
- **Selectable Fixing Points:** Provides versatility for mounting the mini maglock on the door frame in the optimal position.
- **Space-Saving Solution:** Ideal for situations where there's limited space to fix the top plate of the mini maglock directly.
- **Satin Anodised Aluminium Finish:** Offers a sleek and modern aesthetic that complements various architectural styles.
- **Durable Construction:** Our L Bracket For Mini Maglocks is made from aluminium for long-lasting performance.
- **Wide Mini Maglock Compatibility:** Works seamlessly with a wide range of mini maglock models.
- **Double Maglock Installations:** Two L Bracket for Mini Maglocks can be used for secure mounting of double mini maglocks.
