

SR1-MAG-300AZL

Z & L Architectural Bracket Kit With Cover for Mini Maglocks

Description

For a neater installation of mini maglocks (*600Lb holding force maglocks*) on inward-opening doors Z&L bracket kits are designed to allow maglocks to be fitted to inward-opening doors. This kit consists of the following:

- "L" bracket to allow the maglock to be fitted to the header frame
- An adjustable "Z" assembly formed by two "L" brackets which is fitted to the door and holds the armature plate
