

SR1-MAG-800ST
SR1-MAG-800ST Stainless Steel Mini-Maglock For External Installation

Description

The SR1-MAG-800ST stainless steel mini-maglock is the perfect solution for securing external entry points. This weatherproof and robust maglock offers exceptional durability, powerful holding force, and versatile functionality. With its ability to withstand harsh environments and easy adaptation to different applications, the SR1-MAG-800ST provides a reliable and long-lasting access control solution for any outdoor security requirement.

Key Features:

- **Stainless Steel Construction:** Ensures exceptional durability and vandal resistance in harsh outdoor environments.
- **Epoxy-Sealed Housing:** Provides complete water resistance, protecting the maglock from rain, snow, and moisture ingress.
- **Threaded Conduit Fitting:** Offers weatherproof protection for the wiring, ensuring reliable operation.
- **High Holding Force (Up to 363kg):** Delivers powerful locking for various door and gate applications.
- **Wide Operating Temperature:** Functions effectively in temperatures ranging from -10°C to 55°C (14°F to 131°F).
- **Universal Compatibility:** Adapts to different door and gate frames with a range of optional brackets (available separately).

Product Specifications

Weight	3000 kg
Brand	Smart R Distribution
Form-factor	Mini Maglock, External Maglock (Stainless Steel)
Holding-force	800 Lbs
Construction	Stainless Steel
