2 Metre Transom Housings For Installing 2 x Mini Maglocks

Description

The 2 Metre Transom Housings offer a unique and stylish solution for securing double doors with mini maglocks. This innovative housing provides a vertical mounting option for a sleek aesthetic, strategic maglock placement for maximum security, and a straightforward installation process. The 2 Metre Transom Housings are the ideal choice for enhancing both the security and aesthetics of your entranceways.

Key Features:

- **Slim Architectural Design:** Provides a sleek and unobtrusive look that complements modern door designs.
- **Vertical Maglock Placement:** Positions the mini maglocks strategically for maximum holding force.
- **2 Metre Length:** Ideal for securing double doors.
- **Two Cut Outs:** Accommodates two mini maglocks for enhanced security.
- **Requires 2 Mortice Maglocks ([Mini Mortice Maglock](#)):** Please note that maglocks are sold separately.
- **Easy Installation:** Vertical mounting simplifies the installation process.
