Wireless Exit Button – Slim Fit For Architrave Fitting

Description

The Wireless Exit Button provides a user-friendly and aesthetically pleasing solution for access control. This wireless button simplifies installation, offers reliable performance, and integrates discreetly into the architrave, making it a valuable asset for various access control applications.

Key Features:

- **Wireless Operation:** Provides remote control of "Request to Exit" or "Door Open" functions, simplifying access management.
- **Slim-Fit Design:** Mounts discreetly on the architrave for a clean and unobtrusive appearance.
- **Stainless Steel Construction:** Ensures durability and complements modern architectural styles.
- **Clear Legend:** The "Press to Exit" label provides intuitive user guidance.
- **Long Battery Life:** Delivers up to 13,000 operations on a single battery.
- **LED Battery Indicator:** Alerts users when the battery needs replacement.
- **Adjustable Relay Strike Time:** Offers flexibility for various door release time requirements (1, 3, 5, or 10 seconds).
- **Code-Hopping Technology:** Enhances security by preventing unauthorised code copying.
- **Visual and Audible Feedback:** LED indicators and a buzzer alarm provide clear status updates.
