

DNAP0000

NBS Javelin DNA-PRO Hopper Feed Single Side Direct To Card Printer

Description

The Javelin DNA-PRO desktop series offers an all in one solution with high quality colour or monochrome printing with input and output hoppers and an LCD display for ease of use. Upgrade options include dual-sided printing, Wi-Fi, security locks, additional hopper & encoding modules and a laminator to provide additional security to protect your information from being counterfeited, duplicated and tampered with. The permutations seem endless! Do call us so that we can help you pick the model that will meet your requirements.
