A-FOB-FPR
Authenticard A-FOB-FPR Proximity Key Fob, Unprogrammed

Description

The Authenticard "A-FOB" is an attractively chunky, robust keyfob which can also be worn as a pendant or affixed to articles which require electronic identification. Designed specifically for access control systems, the Authenticard A-FOB fob / token is a popular choice for Access Control where 125KHz proximity technology in a keyfob form factor is the credential choice. Provided unprogrammed for encoding using your own programmer.
