

SR1-MAG-600FSF
Monitored Mini Magnetic Gate Lock – Suitable For Side & Face Fixing

Description

The Monitored Mini Magnetic Gate Lock offers a compelling solution for enhancing security in various access control applications. This versatile lock is easy to install, built to last, and provides the features you need to manage entry and exit points effectively. With its durable weatherproof construction, real-time monitoring, and flexible mounting options, the Monitored Mini Magnetic Gate Lock is a reliable choice for access control across various environments.

Key Features:

- **Built for Outdoor Use:** Withstands harsh weather conditions and resists moisture, perfect for external applications.
- **Simple Installation:** Surface-mounted design allows for quick and easy setup.
- **Durable Construction:** Stainless steel housing ensures long-lasting weatherproof performance and a sleek appearance.
- **Mounting Flexibility:** Offers both side and face fixing options to accommodate different installation requirements.
- **Real-Time Monitoring:** Reed switch monitoring constantly tracks the lock's status for enhanced security.
- **Dual Voltage Operation:** Compatible with either 12VDC or 24VDC power supplies for wider system integration.
- **Optional Z Bracket (Sold Separately):** Enables secure attachment of the armature plate to inward opening gates.
- **Watertight Cable Entry:** M20 threaded collar facilitates secure and watertight electrical conduit connections.
- **Low Power Consumption:** Draws minimal current (500mA at 12V or 250mA at 24V) for energy efficiency.

Product Specifications

Weight	2000 kg
Brand	Smart R Distribution
Holding-force	500 Lbs
Construction	Stainless Steel
Contacts	1-pole changeover (1 x SPDT)
Power-requirement	12VDC, 24VDC
Form-factor	External Maglock (Stainless Steel)
Lock-options	Monitored
