

A-BAND-VP

Authenticard A-BAND Waterproof Proximity Wristband

Description

The Authenticard "A-BAND" is a credential secured within an attractive silicone wristband. This useful form factor is ideal for applications where it is impractical to use or carry a card or tag. Durable, flexible and IP68 waterproof characteristics make it suitable for applications in water or high temperature environments such as swimming pools, spa hotels, water parks etc in addition to "hands free" use in traditional applications such as access control, event management, e-ticketing, e-payment and loyalty programs.

- Choice of colours
- Available in different wrist sizes
- Silicone Construction
- Waterproof (IP68)
- 125KHz models work with Authenticard 125, HID Proximity, Farpointe Data and EM410x readers
- FPR versions are Field Programmer Ready for encoding with your own field programmer
- LFO versions are encoded with open format data e.g. 26-Bit Wiegand
- LFP versions are encoded to any custom format
