RX690

Third Millennium RX690 Fingerprint Reader with MIFARE Card Reader

Description

The RX6 advanced access fingerprint control reader is an elegantly designed unit, delivering the latest *multispectral* imaging technology. The unit has a black high gloss finish, and can be fixed to a plain wall surface, or directly to a standard single gang US back box. *TEMPLATE-ON-A-CARD* - This biometric reader allows you to record, encrypt and digitally embed your fingerprint direct to your RFID access card. The RX6 does not need a central core database of fingerprint records, and may operate as a stand-alone unit (subject to control panel access authorisation). Fingerprint enrolment requires 'system administrator' authorisation.
