

RX1K

Third Millennium RX1K Keypad Reader, Black

Description

With a similar footprint to the RX1, Third Millennium's RX1K is designed to fit directly to a UK or EU electrical back box. It also features an RGB illuminated keypad, offering the additional security of PIN entry. The RX1K supports a wide variety of output formats, allowing it to be used in most access control systems. The combination of an integral speaker, RGB LED and audible buzzer provides a flexible platform to give the right user interface configuration for your project. The RX1K is available in two versions: RX1K80PLUS (MIFARE Sector + 125KHz Proximity) and the RX1K82 (MIFARE CSN). Please select your choice when placing your order.
