

ZK27D
ZK27D InfinitePlay Video Entry System

Description

InfinitePlay IP video door entry kit comprising of:

- 1 x Z200D flush-mount entrance panel with 4.3" touch-screen, integral colour camera and 4 high-efficiency LEDs for night-time illumination
- 1 x Z7000 white monitor
- 1 x Z6001 5-port power supply server SIP

The ZK27D 1-button Door Entry Kit features a brushed stainless-steel entrance panel with high resolution 5 megapixel colour camera and a 7" capacitive touch-screen monitor which is based on Android technology and includes an internet browser. The entrance panel and internal monitor are each powered by PoE (Power over Ethernet) through a single CAT5 cable connecting each the 5-port power supply server (included) which in turn can be optionally connected to a local network or internet router for internet connectivity. Dimensions (H x W x D): Entrance Panel: 310mm x 130mm x 2mm Monitor: 119mm x 189mm x 21mm Power Supply Server: 292mm x 113mm x 70mm InfinitePlay is a genuine 100% IP-based system designed and made in Italy. It is the latest and one of the most innovative developments in video door systems both in home security and building control. InfinitePlay uses the Android App™ operating system which allows the development of simple functional user-friendly interfaces. A black monitor is available as an option at no extra cost - please order ZK27D.40
