

INT-04-0106

Intratone 04-0106 Flush-Fit Square Panel-Mount Proximity Reader (Requires Intratone Controller)

Description

This Intratone high frequency (13.56MHz) reader adds proximity fob access control to an Intratone GSM door panel. Designed to fit standard 40mm x 40mm cut-outs this reader is quick & easy to fit. Comes with 4 nyloc nuts for fitting to mounting posts, a gasket for sealing against the door panel and a varistor to fit to the electric lock wiring to suppress any over-voltage conditions should an existing lock not already have one fitted. Note: requires a housing and to be connected to an Intratone controller (4-wire connection).
