

61123511

Javelin 61123511 – YMCKOK Printer Ribbon For Double Sided DCT Printing

Description

The Javelin 61123511 YMCKOK colour ribbon is the ideal choice for producing outstanding printed cards on your dual sided DNA and DNA Pro direct-to-card-printers. The full-colour panels print vibrant, photo-like images, while the two black resin panels allow dual-sided printing of detailed text and accurate barcodes. The clear overlay protects cards from scratching, fading, and everyday abrasions.

Key Features:

- **165 Full-Colour Prints Per Roll:** Each Javelin 61123511 ribbon provides 165 prints, offering a cost-effective solution for your double-sided printing needs.
- **YMCKOK Ribbon:** Consists of Yellow, Magenta, Cyan, Black, Overlay, and an additional Black panel for dual-sided printing.
- **Photo-Like Images:** Ensures vibrant and high-quality images, perfect for ID cards, badges, and more.
- **Dual Black Resin Panels:** Allows for precise and detailed printing of text and barcodes on both sides of the card.
- **Protective Overlay:** The clear overlay panel protects printed cards from daily wear and tear, ensuring longevity.
