

SR1-REX-STA200F

SR1-REX-STA200F Illuminated Infrared Exit Button – Architrave-Mount

Description

The SR1-REX-STA200F illuminated infrared exit button is a valuable addition to any environment where hygiene and touch-free door release are essential. This technologically advanced button combines advanced infrared sensor technology with a user-friendly design, promoting a clean and convenient exit experience. With its durable construction, versatile functionality, and clear visual indicators, the SR1-REX-STA200F is the ideal choice for a wide range of applications.

Key Features:

- **Infrared Sensor Technology:** Provides touch-free door release, ideal for environments where maintaining hygiene is critical (e.g., food preparation areas, clean rooms, laboratories, hospitals).
- **Illuminated Door Release Label:** Brushed stainless steel finish with a clear, screen-printed "DOOR RELEASE" label ensures easy identification.
- **LED Halo Door Status Indicator:** Provides a visual cue to indicate door status (open/closed) for enhanced user experience.
- **Durable Construction:** Manufactured from high-quality stainless steel for long-lasting performance.
- **IP65 Rated Sensor Unit:** Provides protection against dust and water ingress for reliable operation in various environments.

Product Specifications

Weight	kg
Brand	Smart R Distribution
Mounting	Flush Mount
Legend	DOOR RELEASE
Power-requirement	12-24 VDC, 45mA
Operating-temperature	-10°C to 70°C
Construction	Stainless Steel
Device-type	Contactless
Protection-rating	IP65
