

COM-8451V

Comelit-PAC 8451V 1-Way 2-Wire Video Entry Kit with "Hands Free" Wi-Fi Monitor

Description

Enhance your home security and convenience with the feature-packed Comelit-PAC 8451V. This pre-programmed kit offers clear video intercom, remote access, and hands-free communication through a Wi-Fi enabled monitor, all on a simple 2-wire installation. The "MINI WiFi" colour monitor lets you answer the door and communicate with visitors from anywhere via the free Comelit phone app for iOS and Android. Access recorded video clips (10s) of missed callers remotely. Plus, enjoy Alexa integration for effortless voice control.

Kit Components:

- **Quadra series external video entry unit:** Features wide-angle camera, night vision, and call status indicators.
- **Mini hands-free Wi-Fi monitor:** Answer calls, view video, and unlock doors remotely.
- **DIN-rail power supply:** Provides power to the entire system.
- **Distribution & line closure terminals:** Ensure proper wiring connections.
