

MAS12P  
Farfisa MAS12P 2-Button Door Speaker Module

**Description**

The Farfisa MAS12P 2-Button Door Speaker Module provides a feature-rich and aesthetically pleasing solution for modern door entry systems. This innovative unit combines clear communication with advanced functionality, all encased in a sleek and durable stainless steel design. With its seamless integration into the Farfisa Matrix series, the MAS12P is a valuable asset for enhancing security, resident convenience, and overall entryway experience.

**Key Features:**

- **Integrated Door Speaker:** Ensures clear two-way communication between residents and visitors.
- **Advanced Two-Button Configuration:** Supports various access control options and functionalities to suit your specific needs.
- **Stainless Steel Construction:** Provides exceptional durability and a sleek aesthetic that complements any building design.
- **IP45 and IK09 Protection:** Guaranteed weatherproof and impact-resistant performance for reliable operation in various conditions.
- **Illuminated Name Plate and Buttons:** Green LED backlighting enhances visibility in low-light environments, promoting user-friendliness.
