Intratone 4-Channel Mifare Transmitter – Choice Of Six Colours

Description

The Intratone 4-Channel MIFARE Transmitter is a versatile and convenient access control solution that combines the functionality of a remote control and a proximity badge. It is compatible with Intratone's range of RF receivers, and it can also be used as a key fob for hands-free proximity readers. Equipped with MIFARE contactless technology, the key fob transmitters provide a high level of security and convenience.

Available in a range of five colours (please select when ordering).

Key Features:

- MIFARE contactless technology for high security and convenience
- Stainless steel insert for durability and ergonomics
- Compatible with Intratone's range of RF receivers
- Can be used as a key fob for hands-free proximity readers
- Available in a range of five colours
- Unique for easy tracking
