Intratone 4-Channel Mifare Bi-Technology Transmitter – Choice Of Five Colours

Description

The Intratone 4-Channel Mifare Bi-Technology Transmitter is a versatile and secure solution for controlling access to properties equipped with Intratone HF receivers and Mifare proximity readers. This transmitter offers dual functionality, acting as a remote control and a proximity fob in a single device.

Key Features:

- **4-Channel Remote:** Allows control of up to four different access points.
- **Mifare Bi-Technology:** Functions as both a remote control and a Mifare proximity fob.
- **Real-Time Management:** Integrates with the Intratone online management system for remote control via www.intratone.info.
- **Remote Fob Management:** Add or remove fobs remotely without on-site visits.
- **Multiple Colour Options:** Available in black, blue, red, yellow, and green for easy identification and personalization.
- **Robust Stainless Steel Construction:** Ensures durability and long-lasting performance.
- **Battery Saver Feature:** Extends battery life.
- **HF 868 MHz Technology:** Provides reliable and secure wireless communication.

Product Specifications

Weight	0 kg
Brand	Intratone
Colours	Black, Blue, Green, Red, Yellow
Frequency	13.56 MHz, 868 MHz
Operating-temperature	-20°C to 70°C
Protection-rating	IP54
Power-requirement	CR2032 Battery
Form-factor	Long Range Transmitter
Reader-and-card-technology	Ultra High Frequency (UHF), Long Range
