

COM-6741W

Comelit 6741W MINI Handsfree Wi-Fi Door Entry Monitor, Simplebus 2 wires

Description

PRODUCT CODE: 6741W

The Comelit 6741W MINI Handsfree Wi-Fi Door Entry Monitor is a powerful and versatile door entry system that is perfect for both residential and commercial use. It is easy to install and use, and it offers a wide range of features to meet the needs of any user.

Key Features

- Full-duplex audio and 4.3" colour screen
- Wi-Fi port to allow calls forwarding to mobile devices
- Brightness control
- Ringtone volume control with multiple melodies
- 8 sensitive touch back-lit controls for audio activation, door-opening, self-ignition, switchboard call, privacy service, and LED signaling for the door status
- Manages floor door calls as standard
- Face recognition function (can be enabled to automatically send a lock-release command when a known person is recognized)
- Can be used to operate new Wi-Fi home automation devices in the WiFree range by Comelit
- Can be used to control devices with different protocols, thereby integrating any third-party home automation system for the control of gates, outdoor lights, scenario activation, etc.
