

COM-SH-RF12PIR  
Comelit RF12PIR Volumetric PIR Sensor For SecurHub System (Wireless)

**Description**

**PRODUCT CODE: RF12PIR** The Comelit RF12PIR is a wireless motion sensor that uses infrared technology to detect movement. It can be disabled when the alarm system is unset, thanks to Comelit's two-way protocol. The RF12PIR is fully configurable via the control panel, including the number of pulses sent, LED behavior, and sleep time. It also has jumper links for configuring the main parameters.

- Wireless infrared motion sensor
- Detection range of 12 meters
- Pet immune
- Fully configurable from the alarm control panel
- Sleep mode
- Two-way protocol allows for disabling detections when the alarm system is unset

**Product Specifications**

Weight	kg
Brand	Comelit-PAC
Frequency	868 MHz
Annunciation	Green LED, Red LED
Construction	ABS
Colours	White
Operating-temperature	-10°C to 50°C
Power-requirement	CR123 Battery
Connection-type	Wireless
