Comelit-Pac LS8731 Logos Hands-Free Door Entry Monitor

Description

The Comelit-Pac LS8731 Hands-Free Logos Door Entry Monitor provides a modern and feature-rich solution for your door entry needs. With its hands-free communication, customizable features, and seamless integration with existing Simplebus 2 systems, this monitor offers enhanced security, convenience, and accessibility for residents and building managers.

Key Features:

- **5-inch Colour Display:** View visitors clearly with a high-resolution colour display for enhanced identification.
- **Hands-Free Communication:** Engage with visitors conveniently using the hands-free communication function.
- **Simplebus 2 System:** Seamless integration with existing Simplebus 2 door entry systems.
- **Backlit Buttons:** Easily navigate features and functions with backlit buttons for audio control, ending communication, and activating pre-programmed actions.
- **Customisable Buttons:** Four programmable buttons can be configured for desired actions such as electric lock release, message recording, actuator control, and self-activation.
- **Silent Mode:** Enjoy peace and quiet with an easy-to-activate silent mode with visual and graphic indications.
- **Customisable Settings:** Tailor your experience by adjusting brightness, contrast, colour, and ringtone volume through the user menu.
- **Multiple Ringtones:** Choose from a selection of ringtones to personalize your door entry notification.
- **Accessibility Features:** Tactile buttons in the centre of each row provide easy identification for visually impaired users.
- **NFC Programming:** Program the device quickly and efficiently using a smartphone and the MyComelit app, even when the monitor is off.
