DH-ARA24-W2(868)
Dahua ARA24-W2(868) AirShield Keyfob

Description

The Dahua ARA24-W2(868) AirShield Keyfob combines style and functionality to enhance your security system's usability. This keyfob features a modern design, reliable communication, and convenient control options. With its SOS emergency alarm, mobile app compatibility, and intuitive operation, this keyfob provides a valuable addition to any Dahua AirShield security system.

Key Features:

- **Sleek and Modern Design:** Features an all-new industrial design that is both aesthetically pleasing and comfortable to hold.
- **Wireless Connectivity:** Provides convenient control of your security system without the need for complex wiring.
- **SOS Emergency Alarm:** Includes a dedicated button for sending immediate emergency notifications to your security system.
- **Multiple Functions:** Arm, disarm, and control various functions of your security system with ease.
- **Frequency Hopping and Two-Way Communication:** Benefits from secure and reliable communication between the keyfob and the alarm hub.
- **Cloud Updates and Automatic Recovery:** Ensures your keyfob stays up-to-date with automatic firmware updates and automatic recovery from failed updates.
- **Mobile App Compatibility:** Works seamlessly with Dahua mobile apps (DMSS for end users and COS Pro for installers) for real-time notifications, remote control, and system management.
