DH-ARC3000H-W2(868)
Dahua ARC3000H-W2(868) AirShield WiFi Alarm Hub

Description

The Dahua ARC3000H-W2(868) AirShield WiFi Alarm Hub provides a comprehensive and user-friendly solution for your home security needs. This next-generation hub features a modern design, advanced features for reliable communication and control, and seamless mobile app integration. With its wire-free convenience, scalability, remote monitoring capabilities, and stylish design, this alarm hub offers a complete security solution for your peace of mind.

Key Features:

- **Modern Design:** Features an aesthetically pleasing design that complements any home environment.
- **Wireless Connectivity:** Offers a convenient installation process without complex wiring for easy setup.
- **Supports Up to 150 Peripherals:** Connect a wide range of security devices, including sirens, keyfobs, PIR cameras, and more (up to 6 sirens and 64 keyfobs).
- **Detailed Peripheral Status:** Monitor signal strength, battery levels, temperature, and firmware versions of connected devices for proactive maintenance.
- **Wi-Fi Network Connectivity:** Connect the hub using a secure WiFi network for reliable communication.
- **Automatic Network Replenishment:** Ensures uninterrupted communication with automatic network switching for redundancy.
- **Video Linkage on Mobile App:** Receive video verification of alarm events through the dedicated mobile app for enhanced situational awareness.
- **Frequency Hopping and Two-Way Communication:** Benefit from increased security and stability with frequency hopping technology and two-way communication between the hub and peripherals.
- **Cloud Updates and Automatic Recovery:** Enjoy automatic firmware updates through the cloud and automatic recovery from failed updates for a hassle-free experience.
- **Mobile App Compatibility:** Works seamlessly with Dahua mobile apps (DMSS for end users and COS Pro for installers) for real-time notifications, remote control, and system management.
