

DHI-ARK30T-W2(868)
Dahua DHI-ARK30T-W2(868) AirShield Wireless Keypad

Description

The Dahua DHI-ARK30T-W2(868) AirShield Wireless Keypad is a valuable addition to any Dahua AirShield security system. This wireless keypad offers convenient system control, user management features, and multiple access methods for a user-friendly and secure security experience. With its ease of use, advanced features, and reliable communication, this keypad provides an effective solution for managing your security system.

Key Features:

- **Wireless Connectivity:** Provides a simple and hassle-free installation process without complex wiring.
- **Multiple User Support:** Allows for individual user access with unique passcodes, ideal for families or workplaces.
- **Operation Log:** Tracks and stores user activity within the system, providing valuable insights for security management.
- **3 Shortcut Alarms:** Features dedicated buttons for medical, fire, and emergency alarms, enabling quick response in critical situations.
- **Arm/Disarm with Password or IC Card:** Offers flexible access control with keypad passcode or an optional IC card (sold separately).
- **Signal Strength Detection:** Assists in selecting the optimal location for the keypad to ensure reliable communication.
- **Low Battery Alarm:** Provides timely notification when the keypad battery needs replacement.
- **Temperature Monitoring:** Monitors its operating temperature for potential maintenance needs.
- **Frequency Hopping and Two-Way Communication:** Guarantees secure and reliable communication between the keypad and the alarm hub.
- **Cloud Updates and Automatic Recovery:** Benefits from automatic firmware updates through the cloud and automatic recovery from failed updates for a smooth user experience.
