

PAC-511DCiSKIT  
Comelit-Pac 511DCiSKIT: 511 DCi Starter Kit

**Description**

The Comelit-PAC 511DCiSKIT 511 DCi Starter Kit offers a compelling solution for securing a single entry point. This all-inclusive kit provides intelligent access control features, high-security credentials, and a user-friendly design, making it ideal for various applications. With its comprehensive functionality, ease of installation, and scalability, the Comelit-PAC 511DCiSKIT is a valuable asset for any access control requirement.

**Kit Contents:**

- **1x Comelit-PAC 511 DCi:** Intelligent IP access controller for secure door management.
- **1x GS3 Mullion HF Reader:** Compact, weatherproof reader for convenient credential use.
- **1x Admin MT Reader:** Enables adding credentials to the system software.
- **10x PAC Ops™ Fobs:** High-security key fobs for user access control.

**Additional Notes:**

- The kit includes a 3-amp power supply unit for the access controller.
- Management software is not included in the starter kit but is required for full system functionality.
