PAC-511DCiEKIT
Comelit-Pac 511DCiEKIT: 511 DCi Expansion Kit

Description

The Comelit-PAC 511DCiEKIT offers a straightforward and cost-effective way to extend your access control system's reach. This expansion kit seamlessly integrates with the 511DCiSKIT controller kit, allowing you to manage an additional door within your Access Central IP network. With its ease of use, scalability, and compatibility with advanced security features, the Comelit-PAC 511DCiEKIT is a valuable asset for expanding your access control requirements.
Kit Contents:

- **1x Comelit-PAC 511 DCi + 3-amp Power Supply In Metal Enclosure:** Intelligent IP access controller for secure door management.
- **1x GS3 Mullion HF Reader:** Compact, weatherproof reader for convenient credential use.

*Management software is not included in this kit and is required for full system functionality. **PAC Ops™ fobs are sold separately for user access control.
