

SR1-MAG-600VP
Slimline Unmonitored Mini Maglock with Optional Door Status Monitoring

Description

The Slimline Unmonitored Mini Maglock with Optional Door Status Monitoring provides a dependable and discreet solution for access control. These compact maglocks offer high holding force, easy installation, and a stylish design. With the option for door status monitoring, you can choose the level of functionality that best suits your specific security needs.

Key Features:

- **Slim Design:** Discreet and space-saving, ideal for installations where aesthetics are a concern.
- **High Holding Force:** Delivers up to 275kg (600lb) of holding force for secure door locking.
- **Dual Voltage Operation:** Selectable for 12Vdc or 24Vdc power supply compatibility.
- **Surface Mount Installation:** Simple and straightforward for efficient setup.
- **Silver Anodised Aluminium Finish:** Offers a sleek and modern aesthetic.
- **MOV Surge Protection:** Safeguards against electrical spikes and surges.
- **Fail-Safe Operation:** Door unlocks when power is lost, ensuring safe egress.
- **Anti-Residual Magnetism Protection:** Prevents lingering magnetism for reliable locking.
- **Top-Plate, Armature-Plate, and Fixings Included:** Provides all necessary components for installation (excluding power supply).
- **Door Status Monitoring*:** Includes reed switch contacts to monitor door position (open or closed), ideal for integrating with access control systems. (*SKU: SR1-MAG-600D Only)
