

SPC-Y520.000

Acre SPCY520.000 – Flush Mount Box for SPC Compact Keypad

Description

The Acre SPCY520.000 Flush Mount Box offers a practical and stylish solution for installing the SPCK520 and SPCK521 Compact Keypad. By combining a discreet design with easy installation and maintenance features, this flush mount box empowers security professionals to create modern and aesthetically pleasing security systems for their clients.

Key Features:

- **Flush Mounting Design:** Enables a discreet keypad installation, enhancing the overall aesthetics of your security system.
- **Compatible Materials:** Designed for use with plasterboard walls, offering a simple and effective solution for most indoor installations.
- **Complements [SPCY521](#):** Works seamlessly with the SPCY521 Metal Back Box for secure and aesthetically pleasing flush mounting in concrete walls.
- **Easy Keypad Removal:** Includes a dedicated opening tool for effortless removal of the keypad, allowing for X-Bus readdressing or retrofitting of wireless modules.
- **Durable Construction:** The ABS plastic flush mount box ensures long-lasting performance.
