

AIP-WMAG-I

Acre WMAG-I – Wireless Magnetic Contact With Input

**Description**

The Acre WMAG-I Wireless Magnetic Contact with Input is a superior security product that combines advanced technology, user-friendly features, and a discreet design. This versatile contact sensor empowers security professionals to create robust and adaptable intrusion detection systems for their clients.

**Key Features:**

- **Wireless Design:** Simplifies installation and eliminates the need for complex wiring.
- **Highly Accurate Sensors:** Features high-precision hall effect sensors for reliable door and window monitoring.
- **External Input Support:** Allows connection of an additional wired detector for expanded functionality.
- **Configurable Input:** The internal or external contact type can be configured for flexible system integration.
- **EN Grade 2 Approved:** Delivers robust security performance and meets industry standards.
