

SPC-WMAG-S

Acre WMAG-S – Combined Magnetic Contact And Shock Sensor

Description

The Acre WMAG-S is a premium, integrated magnetic contact and shock sensor designed for superior intrusion detection. This innovative device seamlessly integrates with the Acre Security SPC system, offering enhanced protection against break-ins and attempted forced entry.

Key Features:

- **Dual Detection:** Functions as both a magnetic contact sensor for doors and windows and a shock sensor to detect vibrations and impacts.
- **Configurable Options:** Can be programmed as a shock sensor only or a combined shock and contact sensor.
- **EN Grade 2 Approved:** Meets industry standards for reliable intrusion detection.
- **Over-the-Air Configuration:** Allows for convenient remote setting adjustments through the SPC system.
- **Five Sensitivity Levels:** Provides precise adjustment for optimal detection in various environments.
- **Low Battery Alerts:** Ensures timely notifications for battery replacement.
- **Automatic Low-Battery Cut-Off:** Preserves battery life by disabling the sensor when battery levels are critically low.
- **Tamper Protection:** Built-in safeguards against tampering and front cover removal.

Product Specifications

Weight	kg
Brand	ACRE
Series	<i>Acre Intrusion, SPC</i>
Device-type	<i>Ancillary Products</i>
Connection-type	<i>Wireless</i>
Power-requirement	<i>Battery Powered</i>
Grading-compliance	<i>Grade 2</i>
