

SPC-WSMK
Acre WSMK – Wireless Smoke Detector

Description

The Acre WSMK Wireless Smoke Detector is the perfect choice for those seeking advanced, reliable smoke detection with ease of installation and long-term performance. With its extended battery life, superior communication range, and flexible configuration options, the WSMK is a valuable addition to any security system, ensuring the safety and protection of building occupants.

Key Features:

- **Autonomous or System-Based Operation:** The WSMK can function independently or as part of a security system.
- **CPR - EN14604 Compliant:** Meets rigorous European safety standards for smoke detectors.
- **Long Battery Life:** Equipped with high-performance lithium batteries and Automatic Power Save (APS) technology, ensuring a battery life of up to 10 years.
- **Extended RF Range:** 500m range in open space allows a single transceiver to cover most installations.
- **Easy to Mount:** Quick installation with three screws and a push button for enrolment. Operation of the test button activates the internal sounder and associated SPC panel.
- **Easy to Pair:** Smart pairing mechanism allows the device to pair with the SPC transceiver in seconds, featuring a manual pairing button and local visual and audible confirmation.
- **Easy to Configure:** Fully firmware configurable 'over the air', with adjustable features including supervision time and LED behaviour.
