

SPC-WRPTR
Acre WRPTR – Signal Repeater Plug

Description

The Acre WRPTR is a premium two-way wireless repeater designed to enhance the communication range and reliability of your SPC security system. This innovative solution seamlessly integrates with your existing setup, providing an alternative communication path for wireless devices and extending their reach from the control panel.

Key Features:

- Two-way wireless communication
- Up to 10 hours battery standby time
- 500m open-air range
- Easy plug-in installation
- Smart pairing with automatic and LED-guided options
- Unique serial number for each device
