

SPC-WPAN
Acre WPAN – Wearable Panic Button

Description

The Acre WPAN is a user-friendly and water-resistant wireless wearable panic button designed to provide discreet and immediate emergency assistance. This compact and versatile solution seamlessly integrates with the SPC security system, offering peace of mind for vulnerable individuals and security professionals seeking an additional layer of protection.

Key Features:

- **Discreet Wearable Design:** Can be comfortably worn as a watch or pendant for easy access during emergencies.
- **Customisable Button Function:** Programmable via the SPC system to activate a user-defined panic alarm or control specific system outputs (e.g., activate a kill switch for machinery).
- **Unique User Assignment:** Can be assigned to a specific user within the SPC system, allowing for a tailored emergency response.
- **Intuitive LED Operation:** LED indicators provide clear visual confirmation of button activation and system response.
- **Water-Resistant Design:** Suitable for wearing in the shower or other humid environments for added convenience.
- **Long Battery Life:** Up to 5 years of operation with a non-replaceable Panasonic CR2032 battery for lasting reliability.
- **Extended Range:** Communicates reliably with the SPC transceiver over a long-range open-air distance of up to 500m.
