SPC-WKP-SIM
Acre WKP-SIM – Wireless Keypad For SPC Intrusion Systems

Description

The Acre WKP-SIM Wireless Keypad offers a perfect blend of style, functionality, and enhanced security. This user-friendly solution empowers homeowners to take control of their SPC system with ease, providing peace of mind and convenient security management. The Keypad comes with 2 fobs.

Key Features:

- **Modern and Stylish Design:** The Acre WKP-SIM complements any décor with its slim and stylish profile.
- **Simplified Arming and Disarming:** Quick-set options allow for effortless system activation and deactivation.
- **Multi-Coloured LED Indications:** Clear visual confirmation of system status through intuitive LED indicators.
- **Enhanced Security:** EN Grade 2 approved, ensuring reliable performance and robust security.
- **Panic Alarm Options:** Dedicated buttons provide immediate access to fire, medical, and attack panic alarms in emergency situations.
- **Easy Installation and Pairing:** Quick and hassle-free setup process reduces installation time.
- **Long Battery Life:** Low-current RF technology and automatic power saving features ensure extended battery life with high-performance lithium batteries.
- **Dedicated Set/Unset Fobs:** Supplied fobs offer convenient one-touch arming and disarming for added convenience (restricted for use with this keypad only).
