

SPC-WFLOOD
Acre WFLOOD – Wireless Leak Detector

Description

The Acre WFLOOD is a premium wireless leak detector designed to provide early warning of potential water leaks within your property. This slim and stylish solution offers two installation options and seamless integration with your existing security system, empowering you to take proactive measures against water damage.

Key Features:

- **Discreet Design:** Blends seamlessly thanks to its compact and modern aesthetics.
- **Flexible Installation Options:** Choose between a built-in sensor for direct mounting on a potential leak source or a remote sensor for hard-to-reach areas (1-meter sensor cable included).
- **Over-the-Air Configuration:** Simplifies setup with remote configuration capabilities for added convenience.
- **Low Battery Notification and Cut-off:** Provides timely warnings and automatically disables the device when battery life is low to prevent false alarms.
- **Long Battery Life:** Up to 5 years of operation with high-performance lithium batteries for lasting reliability.
- **Extended Range:** Communicates reliably with the SPC transceiver over a long-range open-air distance of up to 500m.
- **Simplified Installation:** Easy to mount, pair, and configure, reducing installation time.
- **Enhanced Security Integration:** Seamlessly integrates with your existing SPC security system for centralised monitoring and potential alarm activation.

Product Specifications

Weight	80 kg
Brand	ACRE
Series	SPC
Device-type	Ancillary Products
Connection-type	Wireless
Power-requirement	2 x AA Battery
Operating-temperature	-10°C to 55°C
