

SPC-A210.100

Acre SPCA210.100 – 2 Door Access Expander

**Description**

The Acre SPCA210.100 2 Door Access Expander is a valuable addition to any Acre intrusion system. This user-friendly and cost-effective solution empowers you to effortlessly integrate powerful access control functionalities for two entry points, improving security and user convenience within your existing security infrastructure.

**Key Features:**

- **Cost-Effective Access Control Integration:** Provides a budget-friendly way to extend access control capabilities to your existing Acre intrusion system.
- **Seamless System Integration:** The expander automatically assigns doors and works in cooperation with your intrusion system for intuitive control and status monitoring.
- **Enhanced Security:** Integration with the intrusion system ensures interlinked access and intrusion rights for comprehensive security management.
- **Simplified User Management:** Existing intrusion system users can be granted access privileges by simply adding a card, streamlining user management.
- **Flexible Programming Options:** On-board relays and zones can be programmed for door locks, door position monitoring, or other functionalities based on your specific needs.
