

VR40s-MF-NGCR-VP

Acre VR40S-MF – Mifare Reader and Keypad With Optional OSDP Converter

Description

The Acre VR40S-MF Mifare Reader and Keypad redefines access control with its modern design and advanced features. This combined reader and keypad offers a sophisticated solution for secure and convenient access management in various security systems.

Key Features:

- **Modern and Aesthetic Design:** The sleek and stylish profile with a black or matte chrome finish complements any building interior.
- **Mifare Card Technology:** The Mifare reader and keypad provides secure and reliable access control using compatible Mifare cards.
- **Integrated Keypad:** Allows for PIN code access in addition to card reading for increased security and user flexibility.
- **Graphical OLED Display:** Offers clear user interaction with intuitive menus and access status information.
- **Multi-Colour Light Frame:** Provides clear visual indication of access status for added user convenience.
- **High-Quality Backlit Keypad:** Tactile feedback ensures accurate PIN entry even in low-light conditions. 85mm x 114mm x 22mm
