SPC-A210.100/VR50 Acre SPCA210+VR50 – Expander And Keypad Reader Kit

The Acre SPCA210+VR50 kit provides a comprehensive and convenient solution for adding advanced access control functionalities to your security system. This all-in-one kit includes both the SPCA210.100 2-door expander and the VR50M-MF NGCR Mifare reader, offering everything you need to manage entry access for two doors in a single package.

Kit Includes:

- 1x SPCA210.100 2-Door Expander: Intelligently manages access control for up-to two entry points.
- 1x VR50M-MF NGCR Mifare Reader and Keypad: Provides secure and user-friendly access control with Mifare card technology.

Key Features:

- Complete Access Control Solution: This kit offers all the necessary components for managing access control of two doors, eliminating the need for separate purchases.
- Enhanced Security with Mifare Technology: The VR50 reader utilises Mifare cards for secure and reliable user authentication.
- Seamless System Integration: The expander automatically assigns doors and works in cooperation with your intrusion system for intuitive control and status monitoring.
- Advanced Door Control Functionality: The SPCA210 expander manages door locking, unlocking, and access events for two doors.
- Flexible Programming Options: On-board relays and zones can be programmed for door locks, door position monitoring, or other functionalities based on your specific needs.
- Standalone Operation Capability: The expander can store up to 512 user cards for continued operation even in case of communication loss with the main control panel.
