

KFS-H10AMULTI

Knight Fire & Security H10AMULTI – Grade 2 Angled Magnetic Contact with Selectable Resistors

Description

The Knight Fire & Security H10AMULTI is a versatile Grade 2 angled magnetic contact, designed for a wide range of security applications. Its built-in selectable resistors and armoured cable ensure reliable performance and easy installation.

Key Features:

- **Grade 2 Security:** Meets industry standards for security and reliability.
- **Versatile Resistor Configuration:** Compatible with various control panels.
- **Armoured Cable:** Protects against damage and tampering.
- **Reliable Operation:** Precise and accurate detection.
- **Durable Construction:** Weather-resistant and long-lasting.
- **Easy Installation:** Simple to install and configure.
