

EAT-797REUR-00  
Eaton 797REUR-00 – Half Wave Collinear Antenna with 3 Meter Coax Cable

**Description**

The Eaton 797REUR-00 is a high-performance, 1/2 wave collinear antenna designed to significantly boost the wireless range and signal strength of your intruder alarm system. This robust antenna offers superior performance and reliability, ensuring optimal communication between your wireless devices. By incorporating the Eaton 797REUR-00 into your security system, you can enhance its overall performance and coverage, providing greater security and peace of mind.

**Key Features:**

- **Enhanced Wireless Range:** Significantly extends the range of your wireless system.
- **Superior Signal Strength:** Provides stronger and more reliable wireless signals.
- **Durable Construction:** Built to withstand harsh weather conditions.
- **Easy Installation:** Simple to install with the included 3-meter coaxial cable.
- **Compatible with Eaton Systems:** Seamless integration with Eaton intruder alarm systems.
