KFS-PDD704K7

Knight Fire & Security PDD704K7 - G2 6-Terminal Industrial Surface Contact - Single Reed 4K7/4K7

Description

The Knight Fire & Security PDD704K7 is a Grade 2 6-terminal industrial surface contact with a single reed switch and built-in 4K7/4K7 resistors for alarm and end-of-line (EOL) configurations. Designed for industrial and commercial security applications, it is EN50131-2-6 compliant, built from high-impact polystyrene, and offers a 40mm operating gap for reliable detection. Compatible with Aritech and HKC panels, it provides flexible wiring options for shared zones and end-of-line setups.
