

KFS-J80-VP

Knight Fire & Security J80 & J80B – 8-Way Junction Box (Grade 2) in White or Brown

Description

The Knight Fire & Security J80 & J80B 8-Way Junction Box is a Grade 2-certified connection box designed for secure and efficient wiring installations. Featuring 8+2 terminals, a leaf tamper switch, and multiple access points, it provides versatile connectivity for alarm systems, access control, and other security applications. Available in white and brown, this durable junction box ensures easy installation and long-lasting reliability in various environments.

Key Features:

- **Grade 2 Certified (EN50131 Compliant)** – Meets security industry standards.
- **8-Way Terminal Design (8+2 Terminals)** – Ideal for multiple wiring configurations.
- **Built-in Leaf Tamper Switch** – Detects removal or unauthorised tampering.
- **Durable Construction** – ABS plastic (J80) and HIPS material (J80B) for long-term use.
- **Flexible Installation** – Eight end knock-outs and four back holes for easy wiring access.
- **Extreme Temperature Resistance** – Operates from **-40°C to +50°C** for reliability in harsh conditions.
- **Available in Two Colours** – **White and Brown** for different installation environments.
