KFS-YA40
Knight Fire & Security YA40 – Grade 3 Potted Flush Contact for Double Doors (with Resistors)

Description

The Knight Fire & Security YA40 is a Grade 3 potted flush contact designed for double doors. Featuring a fully sealed 20mm body, installer-selectable resistors, and 1 metre of potted intruder cable, it ensures secure and reliable performance. Compatible with all major UK control panels, this EN50131-2-6 compliant contact is ideal for high-security installations.

Key Features:

- **Grade 3 Security Compliance** – Certified to EN50131-2-6, making it suitable for high-risk applications.
- **Potted Flush Contact** – 20mm fully sealed design for maximum durability and protection.
- **Double-Door Compatibility** – Ideal for shared zones, double-door installations, or series wiring configurations.
- **Installer-Selectable Resistors** – Compatible with all major UK control panels, including:
    - **Honeywell, Ademco, Orisec, Scantronic, Texecom, Pyronix, HKC, Castle, Aritech, Gardtec, Guardall, Inner Range**.
- **1-Metre Potted Intruder Cable** – Provides added protection against environmental damage.
- **Reliable Performance** – 25mm operating gap for accurate and consistent detection.
