

BAS-SP-AU-VP
BAS-IP SP-AU – Handset for AU-04LA (White or Black)

Description

The BAS-IP SP-AU is a dedicated handset designed as an accessory for the BAS-IP AU-04LA and AU-04LAF audio intercom system. This handset provides an added layer of privacy for conversations, making it an ideal solution for users who prefer discreet communication.

Key Features:

- **Dedicated Handset:** Provides a private audio channel for conversations.
- **Direct Connection:** Connects directly to the AU-04LA audio intercom.
- **Privacy Feature:** Enhances privacy during audio communication.
- **Colour Options:** Available in both white and black to match your existing décor.
- **Compact Design:** Designed to be space efficient.
- **Simple Install:** Easy to implement within a [BAS-IP AU-04LAF](#) system.
