

SR1-BAT-NP4-12  
YUASA NP4-12 – Industrial VRLA Battery (12V 4Ah)

### Description

The YUASA NP4-12 is a reliable and high-performance industrial VRLA battery that provides dependable power for a wide range of applications. With its robust construction, long design life, and maintenance-free operation, the NP4-12 is an excellent choice for critical systems requiring reliable backup power.

### Key Features:

- **12V 4Ah Capacity:** Provides reliable power for extended periods.
- **VRLA Technology:** Maintenance-free and leak-proof design for safe and convenient operation.
- **Wide Operating Temperature Range:** Performs reliably in diverse environmental conditions.
- **Low Self-Discharge:** Minimal capacity loss during storage.
- **Robust Construction:** Durable ABS case for reliable performance.
- **Multiple Terminal Options:** Features Faston quick-fit/release terminals for easy connection.
- **Long Design Life:** Up to 5 years of design life at 20°C.

#### Product Specifications

Weight	1750 kg
Brand	Yuasa
Form-factor	Batteries
Output	4 Amp
Output-voltage	12v DC
