

SS-HDD-1

Seagate SkyHawk – 1TB Hard Disk For CCTV

Description

The Seagate SkyHawk 1tb Hard Disk For CCTV is engineered to meet the demanding storage needs of modern video surveillance systems. Designed for 24/7 operation, this reliable drive ensures you capture and retain crucial footage without missing a frame.

Key Features:

- **1TB Capacity:** Provides ample storage for continuous video recording.
- **Optimised for CCTV:** Tuned for the write-intensive workloads of surveillance systems.
- **Seagate SkyHawk Health Management:** Easily monitor drive health for proactive maintenance.
- **Supports Up to 64 HD Cameras:** Handles simultaneous streaming from multiple cameras.
- **Up to 180 TB/Year Workload Rate:** Designed for high data throughput.
- **Rotational Vibration (RV) Sensors:** Maintains performance in multi-bay systems.
- **Efficient Power Consumption:** Reduces heat and enhances long-term reliability.
- **1 Million Hours MTBF:** High mean time between failures for dependable operation.
- **3-Year Warranty:** Provides peace of mind with manufacturer support.
- **Optional 3-Year Rescue Data Recovery Services:** Offers an extra layer of data protection.
