Intratone 06-0230 – Slim Proximity Reader Kit with 10-Years Free Data

### Description

The Intratone 06-0230 is an "all-in-one" access control kit designed for simplicity and efficiency, featuring a slim proximity reader ideal for narrow door frames. This comprehensive package includes everything needed for a complete, remotely managed access solution, including an impressive 10 years of unlimited data synchronization.

#### Key Features of the Intratone 06-0230:

- **Slim Proximity Reader (04-0113):** Its compact design makes it suitable for installation on narrow door frames and posts.
- **GPRS Data Module with 10 Years Unlimited Data:** Provides continuous, free data synchronization for remote management and updates, eliminating ongoing data costs.
- **Relay Card (12-0110):** Expands control to up to 3 additional peripheral devices from the single-door central unit, offering a cost-effective solution for multi-door management.
- **Mifare Compatibility:** Works with Mifare proximity fobs and cards for secure access.
- **Online Real-Time Management:** Access and manage the system remotely via a web browser ([www.intratone.info](http://www.intratone.info)), allowing for programming, user changes, and updates without site visits.
- **Plug-and-Play Installation:** Designed for quick and easy setup with no complex wiring or hidden costs.
- **Time-Stamped Events:** Logs access events for detailed record-keeping.
- **Free Access Time Slots:** Allows for programmed access schedules.
- **Technical Alerts:** Can send alerts for system events (e.g., relay card's GSM-only alert).

## Product Specifications

Weight	kg
Brand	Intratec
Device-type	Reader
Reader-and-card-technology	MIFARE
Operating-temperature	-20°C to 60°C
Power-requirement	12-24 VDC
Construction	ABS
Frequency	13.56 MHz
Mounting	Surface Mount, Architrave
Protection-rating	IP54
Kit	Yes
Connection-type	GSM
